

MR. J. W. BEDFORD

Introduction

NATURE has a firmly and naturally planted hold on the heart of mankind ; and even those who feel a preference for the delights of man-made civilisation invariably find that if their days have to be spent in the big city they are happy to return, in the quiet dusk of the evenings, to Nature's stronghold outside the town.

Thus it is that the ideal home is one that is set in the rural and unspoiled depths of the country and is yet accessible with ease, comfort and expediency from the heart of the City and West End. Such a home is provided (at a price that is scarcely credible when compared with the figures of even five years ago) on the Manor Homes Estate which Messrs. George Ball (Ruislip) Ltd., with years of building experience behind them, are developing at Ruislip Manor.

Housing developments on a large scale are still comparatively new innovations in this district which only a few years ago was still a quiet village ; and still one of the loveliest in the Home Counties. Only recently have builders begun to vary the policy of reserving the most pleasant and desirable areas for properties of an expensive character, and thus only recently has it become possible for the man of moderate means to exercise a really free and unbiassed choice in the matter of location.

Inexpensive houses were always built on inexpensive land, and thus none but the affluent were able to enjoy the natural and man-created amenities of the more desirable estates.

Now, however, Messrs. George Ball (Ruislip) Ltd., have entirely revolutionised the whole system of super-house development. Now no more need the man of small means be confined to the less attractive sites ; for here, on the Manor Homes Estate, houses which have justifiably been described as palaces in miniature are available at £465 freehold, payable at the rate of 11/7 per week.

The enormous advance of railroad and other transport facilities has, of course, been an influential factor in the development of this estate, which is immediately adjacent to Ruislip Manor Station on the Metropolitan & Piccadilly Rlys. Travelling for less than half an hour from London, you will find an estate still retaining the unmarred beauties and the unpolluted, healthy atmosphere of Nature in her most beautiful aspects.

Yet there is nothing primitive about the amenities of the district. All the facilities which the town-bred householder finds essential to his welfare and comfort are waiting to welcome him at Ruislip Manor. Gas, electricity, concrete roads broadly paved and expertly finished, shops and hotels bearing the stamp of smart perfection, and all the usual facets of social life are present.

Here, then, are the Manor Homes, the newly developed, moderately priced houses which are small but have none of the customary demerits of cottage homes. In these days of instinctive and essential economy many purchasers who could easily afford a more pretentious (and appropriately more expensive) type of house find themselves so surprisingly satisfied with the smaller and cheaper type that they recognise the perfect end of their search, and look no further.

HOW TO ACQUIRE A MANOR HOME

NO ROAD CHARGES NO LEGAL COSTS
NO EXTRAS

INSPECT the Show Houses, and make of our salesmen all those enquiries which are so essential to later satisfaction. Then ask to be informed of the plots or houses that will be available at the time you desire to take occupation.

WITHOUT charge or obligation to purchase, we will reserve a plot (or house if available) for a period of seven to fourteen days, thus giving you an opportunity of thoroughly considering the question of purchase before making a final decision.

IF you desire to purchase, a formal contract would be signed by you and exchanged for a signed contract with Messrs. George Ball (Ruislip) Ltd. The only payment you make at this stage is £5, which represents an initial deposit. The balance of £20 becomes payable prior to taking possession of the house.

APPPLICATION to a Building Society will be made on your behalf for the balance of the purchase money. You have nothing to do regarding this financial arrangement other than signing a prepared Mortgage Application Form, which is forwarded to you for signature.

THE next step is to call and make your arrangements for interior decoration. You have a widely-varied selection from which to choose, and all materials and labour are entirely free. There is no further payment on your part until you move in and commence repayments to the Building Society at the rate of 11/7 per week for the £465 houses, and *pro rata* in respect of the higher-priced properties.
